Dear Valued Dragon Medical Practice Edition customer,

As a trusted vendor, Nuance Communications, Inc. ("Nuance") uses the best technology to address our customers' needs and continuously evolve to improve our solutions.

As part of this evolution to improve performance and security and provide better user experiences, we are shifting to Dragon Medical One, Nuance's cloud-based speech recognition solution. Dragon Medical One offers significant benefits over locally installed speech recognition, including an enhanced user experience when capturing the patient story. Seamlessly move between different devices with all your personalization readily available, and with PowerMic Mobile, use your smartphone as a convenient, wireless mic.

As a result of the shift to Dragon Medical One, we are discontinuing Dragon Medical Practice Edition (DMPE) in North America:

— Dragon Medical Practice Edition will no longer be available for purchase after March 31, 2021.

— Dragon Medical Practice Edition's maintenance and support contracts will not be available for purchase or renewal after March 31, 2021.

— Support for Dragon Medical Practice Edition will end on March 31, 2022.

— Dragon Medical Practice Edition will not be tested or supported on the upcoming Windows 11 release from Microsoft.

What is DMO

- **DMO (Dragon Medical One) is a cloud based speech recognition software that allows users to securely dictate directly into the EMR**
- **Designed to increase provider efficiency and reduce provider documentation times.**

Benefits of DMO vs DMPE

- Increased voice recognition
- Dynamic vocabulary
- Virtually no profile training
- Limited profile corruption
- No local server maintenance
- Autotext

Nuance Dragon Medical One: Secure, cloud-based, clinical speech recognition

Dragon Medical One - as low as $79/month per user + One-time fee $525 for Setup & Training

NOTE: Nuance does not sell the Dragon Medical One software directly to physician practices, you must purchase it from a certified reseller like STI for training and support purposes. For STI to support Dragon Medical One you need to purchase it from STI, and we will need to register your practice as an STI Client with Nuance.
